- ☒ **Manulife Return:** These numbers represent the gross rates of return of the Manulife fund. Past performance is no guarantee of future results.
- ☐ **Additional Historical Information:** In order to provide further historical information, we have included the returns of the underlying fund. If "n/a" appears, it means there is no rates of return information available for that time period. For Multi-Manager funds, simulated historical fund returns have been calculated using the underlying component funds' historical returns and target weights. The simulated portfolio was re-balanced on a monthly basis, while the actual fund is re-balanced using cash flows on a daily basis, which will result slight deviations from a true representation of simulated historical returns.
